

Technical Test – Notes

Plant and Vehicle Marshaller – A73

Guidance to Test centres

These guidance notes outline to CPCS Test Centres the test delivery process for the scenarios and are intended to be delivered as part of the CPCS technical test theory session.

Resources required

Scenarios	<ul style="list-style-type: none">• 4 x CPCS supplied scenarios
Test Area	<ul style="list-style-type: none">• 1 x area with suitable seating and lighting that conforms with the CPCS requirement for theory testing
Other Equipment	<ul style="list-style-type: none">• Writing equipment such as pens, pencils etc.
Notes	<ul style="list-style-type: none">• This activity shall be undertaken at the end of the verbal theory question session. The candidate may either indicate the required information on the drawings, verbally relay the information required to the tester, or a combination of both.• Where the candidate chooses to draw the information required on the diagram, the documents must be identified against the candidate and retained along with the marking sheet for auditing purposes.• Where the candidate relays verbally the information, this must be electronically recorded as per the requirements of the theory test.

Activity – scenario instructions

	<ul style="list-style-type: none">• The candidate will be given each scenario.• The candidate will identify and/or indicate the information required as stated on each scenario.
--	---

Scenarios – marking instructions

	<ul style="list-style-type: none">• The marking guide for each scenario is contained within the electronic theory test. Marks are allotted to the correct identification of each requirement and can be proportioned accordingly, depending on the strength of the candidate's understanding.
